

Elephant Money Farms

Litepaper

A zero fee, high yield, trustless savings and income portfolio system.

Elephant Money Farms

Elephant Money Farms are a **zero fee / high yield / trustless savings** and **income portfolio system**.

Pair TRUNK with your favorite assets to farm TRUNK with zero impermanent loss.

Withdraw your principal, **risk free**, at any time.

Elephant Money Farms

Benefits

Open Source and Verified

Elephant Money Farm is **100% open source** and is **MIT licensed**. In addition, our immutable Asset Vault is verified on chain.

Secure and Audited

Elephant Money Farm has been **fully audited** and has passed 100% of all known security vulnerabilities in the **SWC Registry**.

Trustless and Self Sovereign

Not your keys - Not your crypto! This is why EMF has a **trustless vault technology**. Only our keys can deposit and withdraw directly to an immutable vault. Funds are stored dedicated asset silos owned and whitelisted only to the vault. There is **zero administrative access** to funds in the vault.

Lossless Liquidity Management

EMF implement **lossless saver pools**. Unlike traditional liquidity pools that can suffer from **impermanent loss**, our dual staking model ensures the coins you deposit are the coins you can withdraw. Furthermore even when the markets suffer a downturn **your yield is calculated based on 2X your TRUNK position**. You can earn even more long term by staking when TRUNK is below peg.

High Yield with Zero Fees / Taxes

Elephant Money's TRUNK stable coin is **battle tested** through bull/bear market conditions and malicious side door exploits. TRUNK has never gone to zero and the system **dynamically adjust yield generation** based on the percentage to peg. Elephant Money Farms provide a simple way for the entire crypto community to lock in self sovereign TVL that reduces circulating supply and boost yields. As always, the **ELEPHANT Treasury is the payer of last resort** for yield in the ecosystem.

Sleek and Responsive

Elephant Money is designed to work well on both **desktop and mobile**. A sleek dark theme keeps you in the zone, **winning!**
